## Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

The main content area is titled 'Permission Sets' under the 'SETUP' tab. It displays a list of permission sets with columns for Action, Permission Set Label, Description, and License. A new permission set named 'teacher permission' is listed. The bottom of the page shows pagination and a footer with standard Windows icons and system status.
